

# VMware Partner Credit Transfer Initiative

## Are your PSO Credits about to expire?

VMware Professional Services credits are typically bundled with Enterprise License Agreements or sometimes sold a-La-Carte in conjunction with a VMware License procurement. These credits are intended to provide a flexible consumption model for:

- Professional or consulting services
- Education, training and certification
- VMworld passes

However, these credits expire one calendar year from the date of purchase. Don't let this happen to you.

## How IIS can help

VMware's Partner Credit Transfer program allows customers to transfer their PSO credits to IIS as a partner in the VMware Partner Professional Services Program (PPSP). As a result of our long history of providing professional services for VMware products and our level of certifications and proficiencies, IIS is part of a very exclusive group of partners trusted by VMware to deliver professional services for VMware.

**IIS can help you extend the lifetime of your credits by leveraging those credits towards:**

**+ Assessments and Remediation plans for your environment including:**

Health Assessment  
Network traffic/  
security assessment  
Optimization assessment  
Storage Assessment  
Hybrid Cloud assessment

**+ Proof of Concept**

**+ Design, implementation or optimization of VMware products included in your ELA**

**+ VMworld 2018 Pass**

Contact IIS today at [info@iisl.com](mailto:info@iisl.com) or **(516) 396-6700** to schedule a meeting with our VMware-certified professionals to help you get started.
